

**OMADU**  
**Strengthening Development** 

Omadu International (Private) Limited is an enterprise adamantly proud of its endless contributions and unwavering commitment towards the development of our small and yet beautiful country, the Maldives. Omadu strives to boost our already swiftly advancing nation by strengthening and securing its ties with the rest of the world. True enough, the firm continues to take advantage of the global economic phenomenon by squeezing the best deals for the Maldives. As one of the major established retail subsidiaries of the country already, it should come as no surprise that Omadu's first priority is and always will be the utmost satisfaction of its growing customers and clientele. By connecting customers with the technological world, Omadu trusts that such an experience surely leads to pure commercial enlightenment for the company as well as the clientele. On a bright note, Omadu's retail subsidiaries deliver an impressive selection of over 4,500 different products to customers in accordance with their personal preferences and choice.

By casting an eye back to the last thirty years of Maldivian economic history, it is astounding to note developments of gigantic proportions the nation has been able to achieve. Omadu feels privileged to have assisted as well as being an inspiration for so many businesses during such a commercially dynamic era. However, it is no easy task to always create or predict the best opportunities out of the rapidly fluctuating World Market. In spite of saying that, the corporation has complete confidence in its enormously efficient and devoted workforce always bringing out the best outcomes and solutions for the enterprise and customers. While on the subject of Omadu's numerous employees, the company believes they are second to none when it comes to genuine expertise regarding sales services, not to mention an abundance of skills in manufacturing. Perhaps it is only natural that such perfection could only be attained through years of hard work and experience. Along with the firm's booming business, the same can be said for its assets, array of vehicles and spacious warehouses that continue to multiply in both quality and stature.

On a more domestic note, Omadu Viyafaari provides a backbone for the thriving construction revolution the Maldives face in this modern age. Understandably, such a complex industry as construction would indefinitely require a wide range of tools and contraptions that are highly innovative. Omadu Viyafaari draws no line when it comes to providing the required equipment for the clientele be it small-scale daily items to heavy-duty machinery for specialized workshops. Omadu Viyafaari also maintains close affiliations with both the boat building and metal works industry by supplying them with various customized materials. Always at the forefront of technology, Omadu Viyafaari imports a variety of internationally renowned brands; the company is also an authorized distributor for Bosch power tools and accessories.

Though a growing branch, Omadu Agricultural Products takes great delight in promoting and encouraging commercial agriculture within the country. It is only quite recently that the Maldives began its venture into commercial agriculture as well as attaining a degree of self-sufficiency for tourist resorts. At such a crucial period, Omadu Agricultural Products' presence is of profound significance due to the company's successful promotion of diverse fertilizers and pesticides in accordance with the tropical environment. Here it is worthy to remark that Omadu also provides modern gardening accessories that are agreeable to the sensitive nature of our island soil, especially concerning sustainable farming. Omadu is the sole distributor for Multiplex fertilizers and pesticides.

MyBaby, as the name itself implies, is a specialist retail outlet catered to meet the needs of infants, parents and young children in general. One would only have to imagine the amount of delicate items (such as specialized furniture, toys, clothing etc.) that a growing infant would need. The company would like to think of this venture as a little contribution for the welfare of future generations.

Omadu Bazaar further embellishes the firm. The Maldivian term 'Bazaar' can be loosely translated as any market for any good. Simply, Omadu Bazaar is a supermarket designed to meet almost any domestic need. Yet again the company's concern for its customers is a constant challenge in keeping all prices as attractive and reasonable as possible.

Omadu remains optimistic and hopeful by presenting a brief overview of the glorious company. By glorious, the firm relinquishes a dash of nostalgia of former accomplishments and contributions to the society. And let's not forget Omadu's eagerness and excitement in leading every single customer towards an even more glorious future. Omadu will always continue to be confident in its ability to experience substantial economic growth, along with honesty and integrity.
